Dear Dr. Boitsov:

By way of implementation of the exchange agreement on standards in the electrical field and in accordance with the proposal made at our meeting in Moscow in June that advantage be taken of the presence of experts from the electrical field in both the USSR and the USA at the IEC meeting in Bucharest in September, we have arranged with Mr. Leon Podolsky, President of the USA National Committee for IEC for him and members of the USA delegation to get together with appropriate members of the USSR delegation to refine further the categories of electrical industry standards in which the exchange of documents is to be undertaken.

The other participants with Mr. Podolsky will be Dr. M. G. Domsitz of the National Bureau of Standards and Vice President of the U.S. National Committee; Mr. Sava Scher, Manager of Standards for the Institute of Electrical and Electronic Engineers and a member of the Executive Committee of the U.S. National Committee; and Mr. Ivan Easton, Retired Vice President, General Radio Company, Chairman of Committee TC 66 on Electronic Measuring Instruments.

I assume that you will inform the members of the USSR delegation accordingly so that they will be prepared for the proposed discussions with the USA delegation.

Sincerely,
